## High School Matters Cause Excitement

The meeting of delegates from different towns and school districts to discuss some plan to overcome High School financial difficulties held in Didsbury last week developed into a free-for-all discussion as a large number of outsiders were present. The meeting was only called for an expression of opinion from the different towns, but some of the audience seemed to think that definite steps were to be taken to put any scheme that might be brought up into force at once and were out to oppose any or anything that might be suggested.

Dr. Clarke, chairman of the Didsbury School board, welcomed the delegates to Didsbury and explained the purposes of the meeting, asking that the problems be faced sympathetically and that the schools did not exist exclusively for the towns but for those that were outside of them as well. The meeting was called to formulate some plan of assistance. He then asked the meeting to nominate a permanent chairman and secretary.

Dr. Clarke was unanimously re-elected chairman and Mr. Mel Shantz, Secretary.

Mr. Norman Clarke, Didsbury, was then called upon to report the interview with Premier Greenfield who had stated that as far as the government were concerned that they were in no position to render any assistance, but that he was willing to consider suggestions. Mr. Clarke presented an outline of his idea as to forming High School districts which would be sufficiently extensive to spread the cost of upkeep. He suggested drafting a resolution and forming a committee to take up the matter.

Mr. J. M. Reed, Sec.-Treas. of the Didsbury School district, gave the following figures as to cost of High School: Principal's salary \$1950; second teacher \$1700; third teacher \$1600; janitor \$25 to \$35 per month; fuel \$350; government grant per room \$800.

Mayor Chambers, Didsbury, stated that last year the school mill rate on town taxpayers was 55 mills but this year it would have to be raised to 70 mills. Under the circumstances it was imperative that the schools would have to be financed in some other way. He thought the farmer would be quite willing to assist in preserving the High Schools and help in overcoming the difficulty.

Mr. Shenfield, of Bowden, assured the meeting of the sympathy of his district and thought it was surely possible to formulate some plan to relieve the situation.

Mr. D. Cameron, M. L. A., Innisfail, spoke on the question

and remarked upon the difficult situation confronting the government. He fully recognized the need of the best education we could give and thought that some plan of overcoming the present difficulty would not be wanting.

Mr. Smith, M. L. A., Olds thought that education was a most essential factor and suggested the idea of Municipal School Districts, such schools to be within easy reach of the pupils and supported by a pure tax for educational purposes.

Mr. Claypool, M. L. A., Didsbury, after a few remarks suggested that the meeting be thrown open. After considerable discussion in which the teacher's salaries were mentioned and many other things the following resolution was presented and carried:

"Whereas the matter of financing the High Schools under existing conditions has become acute, therefore, we the ratepayers and representatives of adjoining districts interested in the question, do approve of a committee being appointed

from this meeting with powers to draft a resolution to present to the provincial government for the formation of High School districts along the lines considered at the meeting."

Commissioner Stephenson, of Red Deer, stated that he had not voted either way. He affirmed that it was the duty of the government to find some solution for the problem. He thought the Municipal method might be applied to High Schools.

Mr. J. Eubank, Didsbury, cited an instance of where the teachers resolved to take a 25 per cent. cut in salary.

Considerable discussion ensued regarding the formation of a committee representing town and country, one from each, to place the matter before the government but this had to be abandoned as impracticable because of the shortness of time.

Dr. Evans nominated the following committee to place the matter before the government and to call another meeting to see what can be accomplished. Dr. Price, of Carstairs; Norman Clarke, Didsbury; Mr. Richardson, Bowden; H. E. Shenfield, Innisfail; Commissioner Stephenson, Red Deer.

The delegates attending the meeting were as follows: Red Deer, Commissioner Stephenson; Innisfail, R. J. McMahon; M. McLeod, W. G. McArthur; Donald Cameron, M. L. A.; Bowden, H. E. Shenfield, C. H. Richardson; Olds, Mayor L. R. Hartmann, W. Bliss, J. R. Welsh, J. Grant, Nelson Smith, M. L. A.; Didsbury, Mayor Chambers, A. A. Austin, Dr. J. L. Clarke, Norman Clarke, Mr.

Claypool, M. L. A.; Carstairs, Dr. Price, Dr. Hays; Crossfield, A. W. Gordon.

**BIG POULTRY MEETING**

The provincial Department of Agriculture will hold a series of meetings from Crossfield to Red Deer commencing on March 6th. These meetings will be of great interest to farm women and poultry raisers as they will include instruction of marketing, keeping and culling of poultry and motion picture films of great interest will be shown relating to the industry. The meetings will be held at 2 and 8 p. m. on the dates which can be seen in our advertising columns. Everybody is cordially invited and it is to be hoped that all who can will take advantage of the department's efforts to spread the knowledge needed in this business.

Premier Greenfield made the announcement last week of his intention to appoint someone specially qualified to make a study of the Bank Act of Canada, in order that the provincial government may make its own suggestions as to amendments when the act comes up for consideration in the Dominion house.

## Burnside U.F.A. Takes Up School Matters

At the last meeting of the Burnside U. F. A. held in Burnside school on February 24th, there was a good turnout. The delegates who attended the annual U. F. A. Convention in Calgary gave their report. Many matters of interest to the members were discussed among them being the High School question. The following resolution was drafted and the Secretary instructed to forward same to Mr. Claypool, our M. L. A.

We, the members of Burnside local U. F. A. No. 568, wish to go on record as being very much opposed to any steps taken by the High School boards of the towns and villages to include us in their High School districts, as we think this should be fully discussed by

the Rural districts and they given a chance to present their views regarding the matter.

## AROUND THE TOWN

Continued from last page.

The many friends of Mr. Geo. Sexsmith will learn with regret that he slipped on some ice at his home on Monday and sprained his ankle severely.

Mr. W. J. Scheidt had the misfortune, Saturday last, to bump his head on a pail of salt which was hanging in the barn, with the result that he was laid unconscious. Reports state that he is not progressing as favorably as might be.

Do not neglect your eyesight, see M. Mecklenburg, a specialist of thirty years experience, who will again be at Didsbury on Wednesday, March 22nd, at the Rosebud hotel. Charges are moderate.

Feed oats required for relief purposes will be shipped from elevators free of all charge to distributing point after February 28th. This announcement has been made by Hon. Geo. Hoadley, Minister of Agriculture. Mr. Hoadley has also asked the dominion government to waive the weighing and inspection charges of one cent a bushel. Seed oats are to be supplied at half the regular freight charges.

Elimination of many of the special subjects now taught in the intermediary grades of the public schools, in order that more time may be given to the teaching of the fundamental

subjects, is being discussed by the general committee on revision of public school curriculum which has been in session in Edmonton for some time.
